Forward-Looking Statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements – written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

India is passing through an unprecedented socio-economic transformation, with renewed Government focus on all sectors of the economy. Agriculture and welfare of farmers in particular are receiving significant budgetary and non-budgetary support from the Government. At Kaveri Seed, we are committed to help strengthen India's food and nutritional security by consolidating our fundamental strengths.

We are reinforcing our research and development (R&D) efforts by particularly focusing on high-yielding hybrid technology. Hybrid technology offers considerable opportunity for increasing productivity of field crops and vegetables. It is an appropriate technology for sustainable agriculture and thus, deserves to be promoted on a large-scale.

We are consistently building a robust portfolio of field crops and vegetables to help enhance farm yield. We are also engaging more with farmers and educating them about our products and handholding them to implement agricultural best practices.

We are also extending our brand presence across India through aggressive marketing and branding initiatives.

These on-going initiatives kept us engaged during FY 2015-16; and we will continue to pursue our mandate of ensuring farmer empowerment and food and nutritional security for all by relentlessly consolidating our robust strengths.

MORE ABOUT KAVERI SEED

Incorporated in 1976, Kaveri Seed Company Limited (Kaveri Seed) has emerged as a premium seed company, engaged in the production and distribution of high-quality hybrid seeds. Today, we are one of India's fastest-growing seed companies with a large network of distributors and dealers, spanning the country. We have among the largest capacities for seed processing in India. With our enhanced focus on R&D, we are ensuring a consistent pipeline of superior products for diverse climate and soil conditions.

OUR VISION

With consistent performance in all functional areas of the Company, our endeavour is to make Kaveri a benchmark seed company with the best of research, innovation and product development.

OUR MISSION

To realise our vision, every member at Kaveri will adopt consequential values of the Company and inculcate sustainable business practices. In our endeavour to reach the goal, team Kaveri would uphold all brand promises to its stakeholders.

OUR EXPERTISE

We have over three decades of experience in application of the science of genetics and principles of plant breeding in the evolution of crop hybrids, quality seed production, conditioning and processing and in building extensive distribution network with strong farmer relationship.

OUR REPUTATION

We are serving Indian farmers consistently to improve their crop yields ever since inception. We have developed enduring relationships with farmers across India; and our 'Kaveri Seeds' brand enjoys wide reputation and loyalty, owing to our product range and quality commitment.

Our accreditation

We have registered our elite germplasm/parental lines and hybrids with Protection of Plant Varieties and Farmers' Rights Authority (PPV&FRA). Moreover, 11 hybrids/varieties have already been released through Central Varietal Release Committee (CVRC); and some are under notification during this year.

Our awards and recognition

- Kaveri Seed was awarded the prestigious Forbes listing under top 200 company under a billion in Asia Pacific Region for four consecutive years (2010, 2011, 2012 and 2013)
- Awarded the 'Bio-Excellence Asia Award 2015' from the Department of IT, BT and S&T, Government of Karnataka

CHAIRMAN'S COMMUNIQUÉ

Dear Shareholders,
For a developing country like India with close to 1.3 billion people and shrinking arable land, the priority is to focus on sustainable agricultural practices; with deployment of advanced technology and consistent research and development efforts. Seed is the basic and most critical input for sustainable agriculture across the world. It is estimated that the direct contribution of quality seeds alone to the total production is around 15-20%, depending upon the crop. It can be further enhanced up to 45% with efficient management of other inputs.

The country's seed industry is evolving at a rapid pace. It grew at a compound growth rate (CAGR) of 8.4% in volume terms from FY 2009 to FY 2015 to reach 3.5 million tonnes in consumption (Source: ICRA). Going forward, the industry is expected to grow significantly, owing to improved seed replacement rate (SRR) and increasing adoption of high-yielding hybrid seeds. The Government of India's favourable policy environment, aimed at supporting the usage of seeds through the National Seeds Plan and bolstering agricultural productivity through the National Food Security Mission (NFSM) also augur well for the industry.

As a responsible industry player, we at Kaveri Seeds are working hard with a farmer-centric approach. So that the Indian farmer can have a wide product choice; and the agricultural sector can grow sustainably and contribute to nation wellbeing.

Revisiting FY 2015-16

FY 2015-16 was one of the most challenging years in our corporate journey. This happened as India's agricultural sector witnessed two consecutive years of inadequate rainfall and drought across large parts of the country. Coupled with low commodity prices, the rural sector was under tremendous stress. Given the large carryover stocks by the industry, there was significant competitive pressure by competitors to liquidate inventory. At Kaveri, we had anticipated the prevailing risks and responded with resilience and delivered a satisfactory performance, taking into account the conditions in which we had to operate.

In the current financial year, we achieved consolidated revenue of ₹ 910.17 crores (₹ 1,176.66 crores in FY 2014-15). Our EBITDA stood at ₹ 206.00 crores vis-à-vis ₹ 325.08 crores in FY 2014-15; and a net profit at ₹ 172.69 crores vis-à-vis ₹ 300.96 crores in FY 2014-15. We maintained a persistent focus on product quality, innovation and farmer engagement to strengthen our business model.

Moreover, we strengthened our credit management, better inventory management and production planning enabling us to bring down our inventory significantly and ensured steady cash flows and reduce our risk of bad debts.

During FY 2015-16 we worked proactively towards consolidating our fundamentals.

We reinforced our R&D through breeding high-performance hybrids, increasing our testing locations and forging relationship

with more institutions to develop superior products. We focused commercialisation of new products to meet the requirements of farmers in different regions.

Our marketing and distribution network, our key strength, enabled us not only to service our existing markets, but also expand our reach further in most markets. Our core network of loyal and committed channel partners has been built over long period of time, on the strength of proven product performance and meeting customer expectations.

We are expanding our marketing and distribution network deeper into agricultural belts. We believe that such expansion will significantly enhance business opportunities for us in future in untapped and growing markets.

We continued our engagement with the farming fraternity through multiple engagement programs. We not only made them aware of our brands and new range of products; but also rendered relevant agronomic information to increase their farm productivity.

We anticipated the climate challenges and were successful to produce seeds for next year in spite of tough growing conditions.

For all that we have achieved over the years, the credit goes to our team. We have added many senior professionals this year to strengthen the management and bring World class best practices in our organisation. We have been able to attract the best industry talent, nurture their skills and recognise their hard work through various rewards. We rely on the expertise of our people for success across our business functions; and

our human resource practices actively support our growth strategy.

Growth strategies

Cotton, Maize, Rice and Bajra along with other field crops are key crops and we still believe that we can grow market share in most of the crops and create market in Rice.

We are confident to bounce back in Cotton in the coming year given very good performance of our leading hybrids as compared to competition. We expect the Maize market to increase in the coming year given the attractive commodity prices.

Rice with a huge market potential is the next major opportunity for the Company's business. Rice farmers are upgrading from farm saved seeds to packed seeds and we already have a good presence in the growing market. We would like to ramp up our volumes in selection rice and are investing in a state of art processing and conditioning plant in Mulagnoor which is an ideal location close to seed production area.

The demand for Vegetables has been increasing with economic growth and higher disposable income. The demand for high quality vegetables seeds has been growing in the last few years and we have identified Vegetables seeds are the next growth opportunity. Currently, Vegetable seed contributes to less than 2% of our revenue but we are confident that we will be able to rapidly ramp up the business. We have expanded our investment in Vegetable R&D and strengthened our expertise in seed production & sales and marketing by adding human capital.

Social commitment

At Kaveri, our social commitment is a part of our all-embracing sustainability strategy. We conduct various community outreach and socio-economic development programmes in three villages of Telangana, namely Gatla Narsingapur, Ramnagar and Bollone Pally. Our intervention areas comprise education, farmer welfare and community empowerment from the grassroots.

India is now witnessing a huge socio-economic and demographic transition, as poverty levels are declining and large sections of society are aspiring for a better quality of life. The country's food consumption patterns are also changing with focus on health and nutrition. We at Kaveri have the capability and the commitment to help make a difference in the food and nutritional landscape of India.

On behalf of my colleagues on the Board, I would like to express my sincere gratitude to our employees, bankers, partners, customers and shareholders for their continued support and encouragement, as we pursue our growth strategy.

Sincerely,
G. V. Bhaskar Rao
Chairman & Managing Director

INNOVATION SHOWS THE WAY FORWARD

Yes, that's part of our corporate ethos. Therefore, we are blending the best of traditional breeding with cutting-edge biotechnology to develop superior hybrids and inbred varieties that are high-yielding under minimal inputs and stress environments. As part of our consolidation initiatives, we are investing consistently in cutting-edge R&D efforts.

We are conscious of evolving requirements of farmers, consumer preferences and the looming threat of climate change and develop products keeping in view of these changing realities.

Over the years, we have carved a niche for ourselves in the seed market. We are specialised in breeding genetically-enhanced hybrids and inbred varieties, which are resistant to pests and diseases and

tolerant to drought. This ensures superior quality and high yields.

We made a major breakthrough in plant breeding with the creation of genetic variation and the development and commercial release of promising hybrids like Jaadoo and ATM in cotton, KMH 25K45, Kaveri 50, Ekka in maize.

We undertook the following initiatives to enhance our product portfolio and stay at par with industry requirements:

- Concentrated on breeding goals namely, increasing yield potential, safeguarding yield and ensuring quality
- Emphasised on developing a modern variety; besides, high yield is often expected to be specific duration, resistance/tolerance to pest diseases
- Established molecular basis of heterosis
- Introduced hybrid breeding approach to create heterotic bins

R&D infrastructure

- Dedicated research farms of 700 acres (own & leased) land under varying agro-climatic conditions located in and around Hyderabad
- Multi-location breeding and trial stations in over 70 centres across India
- State-of-the-art biotech quality check and seed technology laboratory enable crucial quality processes
- Gene bank maintains approximately 6,500 germplasm accession in field and vegetable seeds. It facilitates genetic enhancement and multi-disciplinary crop improvement research programmes

R&D focus areas

- Collection of germplasm and genetic enhancement to develop elite recombinants and new promising products
- Creation and exploitation of genetic variation and development of superior hybrids in mandate crops
- Conjunct use of bio and hybrid technologies in product development
- Molecular characterisation of lines and hybrids as well as hybrid

genetic purity analysis

- Facilitate marker-aided breeding strategies to speed up the conventional process of breeding; doubled haploid breeding, marker aided selection, marker assisted recurrent selection, rapid generation advancement, inbred heterotic-pool bins, multi-parent synthetics, multi-parent advance generation inter-cross populations are employed to achieve certain specific targets

Research collaborations

We have developed research collaborations with several national and international institutions, comprising:

- International Crops Research Institute for the Semi-Arid Tropics (ICRISAT)
- Melinda Gates Foundation's Harvest Plus Programme
- IIRI's Hybrid Rice Development Consortium
- International Maize and Wheat Improvement Centre (CIMMYT)
- USDA programme on Heat Tolerant Maize for Asia (HTMA)
- DBT's Biotechnology Industry Research Assistance Program (BIRAP)
- National Agricultural Research System (NARS)
- All India Coordinated Crop Improvement Programmes of ICAR

CONSOLIDATING ON FIRM FUNDAMENTALS

SUPPLY CHAIN EFFICIENCY DRIVES FARM YIELD

Our supply chain comprises breeder seed production, foundation seed production, hybrid seed production and seed processing and conditioning. Our objective is to synchronise supply to demand consistently through supply chain efficiency. The seed with elite quality standards has to be placed in the market on time to help enhance farm productivity. We fulfil this commitment with unwavering focus.

We have a long-standing relationship with growers and farmers, which has been built over years. We not only support the technical aspect of seed production, but also provide financial assistance to farmers when needed.

FY 2015-16 was a challenging year for seed production since the rainfall was not adequate and the moisture level in soil was less than optimum. We took the following initiatives during the year to strengthen our supply chain:

- Seed production planning tool to evaluate seasonal seed volumes, based on market demand and forecast
- Early identification of suitable area for the production and selection of growers
- Additional cold storage capacity to maintain the quality of seeds
- Commissioning of Gowaram plant to meet the increasing processing and packing needs
- Focus on the field quality of maize by implementing a new field-driven concept, '100-0-5' (100 is 100% detasseling, zero is no silk emergence in female, five is completion of 100% detasseling in five days). It resulted in seeds with very high genetic purity, and with minimum seed quality failures
- Investment in new processing and packing plant in Molangur; it is an ideal location being right in the middle of paddy production area
- Inclusion of a new function within supply chain - Seed Production Research (SPR). SPR would involve trials of parents of new hybrids in multi-location production geographies to determine seed yield potential. This will help us ramp up the production of new hybrids
- Strengthen our maintenance breeding programme of commercially released hybrids/ varieties to improve its life span and quality

Quality Assurance – our commitment and differentiator

In our business, maintaining and enhancing quality standards are critical for long-term growth and sustainability. At Kaveri Seed, we are equipped with state-of-the-art Seed Testing Laboratory at Pamulaparthi, Telangana for quick and reliable method of testing of seed lots. Seed lots are thoroughly checked by the quality control department for genetic and physical purity as well as germination. We set quality benchmarks, based on Indian Minimum Seed Certification Standards (IMSCS) to supply quality seeds of premium hybrids for ensuring the emergence of better seedling. We have over 300 acres, earmarked for a large-scale grow-out-test facility to test over 30,000 samples.

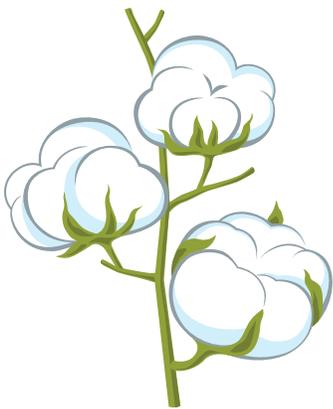

CONSOLIDATING ON FIRM FUNDAMENTALS

A WIDE SPECTRUM OF PRODUCTS

At Kaveri, our extensive product portfolio comprises quality seeds of cotton, maize, rice, bajra, sorghum, sunflower and vegetables. We have over 100 products in mandate crops to cater to different requirements of farmers. We will continue to enrich our portfolio to enhance our brand reputation and value proposition.

Cotton

Cotton is our core product in Kaveri. We are one of the leading cotton seed producers in India, with a significant market share. We have multi-geography presence for cotton seed production. Cotton area growth was substantial for the last many years till FY 2014-15. There was a drop of area in FY 2015-16 by more than 5% as compared to the previous year. Also the market volumes dropped as there was no resowing, which was the case last year. There was a bit of uncertainty in Maharashtra due to reduction of MRP in the peak season. The season also saw relatively shorter window of sowing as compared to past year.

We achieved good market response with our key cotton hybrid seed 'Jaadoo'. We saw very good demand for ATM in many states and the feedback for our new introduction 3x1 has been very good from farmers. In spite of tough growing conditions, Jaadoo's performance has been par excellence and we are confident to comeback strongly in the coming year. ATM will be our next blockbuster hybrid in Cotton and we expect to gain market share with it. We have tested few new hybrids in farmer field and will be launching them in near future.

Maize

At Kaveri, we forayed into the production of hybrid maize in 1997 with our first major hybrid called Kaveri 517. It has led to a substantial increase in yield for farmers. To strengthen our maize portfolio, we made significant investments in improving R&D, quality assurance, processing and marketing capabilities. Our consistent focus has been on increasing the productivity of maize hybrids and stabilising yields against adverse situations like drought or heat, among others. We have partnered with CIMMYT Asia to support a project on Heat Tolerant

Maize for Asia (HTMA). We are also conducting another programme on breeding for drought-tolerant maize. It was supported by Biotechnology Industry Research Assistance Council (BIRAC) of the Department of Biotechnology, Government of India. Maize acreage in FY 2015-16 dropped by more than 8% due to drought conditions and un-remunerative commodity prices. Coupled with excess supplies, the market was very competitive. We have been able to retain our market share. We have launched a new hybrid 'Godfather' in Rabi season to address the high margin single-cross market.

Spring market is a growing high value market in Punjab and Uttar Pradesh. We launched a new hybrid KMH 4210 to address this market. We continue to develop a strong pipeline of products in Maize.

Rice

Rice is a huge opportunity for seed industry in India. Given the early warning from various institutions regarding lower than expected rainfall, farmers were reluctant to go for hybrid seeds and the market for hybrid rice did not grow as expected. But, we were able to grow our volumes by 20% over last year by more farmer contact and demand-creating activities.

Farmer have been moving away from farm saved seeds and demand for selection rice has been growing rapidly. We have been able to increase our volume in selection rice in FY 15-16. We are strengthening our footprint in rice market to address the growing market of hybrid rice and selection rice.

Other crops

Besides cotton, maize and rice, we have a strong portfolio of other field crops. Few such field crops include bajra, sunflower, mustard, sorghum, pulses, and wheat.

In India, bajra occupies the highest crop area after rice and wheat and an important segment in hybrid seed industry. We have a strong R&D programme in bajra and strong

portfolio of products. We are amongst the top few players in bajra and we will continue to focus on increasing our volumes.

Sunflower remains a niche and attractive market. We are amongst the few companies which continue to launch new products and we are confident to remain among the top player in sunflower market.

Mustard and wheat is another important Rabi crops of India. We would like to leverage our footprint and channel to participate in these crops. These are additional revenue with minimal investment.

Vegetables

The demand for vegetables is continuously increasing in India. We are witnessing an increasing necessity for a wide variety of high-quality vegetables. At Kaveri, we are putting a lot of emphasis on tomato, chillies and okra. Besides, our research efforts on brinjal, gourds, watermelon are still in progress.

We have been doing research in Vegetables for many years and have scaled up our R&D activities in FY 2015-16. We are planning to have a dedicated team to focus on Vegetables sales and marketing activities. We have identified the key crops and geographies in which we would like to operate in the future.

CONSOLIDATING ON FIRM FUNDAMENTALS

MARKETING IS OUR KEY DIFFERENTIATOR

India's agriculture is very diverse, where different types of seeds are required by farmers to produce crops and vegetables, depending on variations in soil and climatic conditions.

We are extending our reach across markets; and our marketing initiatives primarily centre around distributors, dealers and farmers, besides brand activation campaigns.

Over 15,000 direct and indirect distributors across the country, and around 350 highly motivated marketing professionals drive our market penetration.

Distributor engagement programmes

Distributor meetings: Every year, we organise distributor meetings at the regional level to share our business plans with them. Besides, in these meetings, we also discuss about our farmer demand creation activities to drive sales and reach a larger consumer segment.

Key distributors: We organise special family trips for our key 'high-performing' distributors, every alternate year. Through this initiative, we appreciate and recognise those distributors who contribute to our growth.

Farmer-engagement programmes

On-farm technology demonstration: We conduct farmer education programmes across geographies to make them aware of new and high-yielding products. We engage

with farmers and introduce them to our wide product portfolio; we also educate them about best-in-class farming techniques. It not only strengthens the confidence and trust of farmers in our brand; but also makes them more attuned to better farming techniques to increase yield and income. We have increased the number of farm demonstrations in this year for many of our pipeline products.

Krishi melas: We participate in and sponsor agricultural fairs at state and district levels. These public gatherings are organised in collaboration with the State Department of Agriculture, SAU's and ICAR institutions. The objective is to disseminate knowledge on new technologies and better farming techniques among farmers.

Other initiatives

- Our team approaches farmers and provides time-critical farm assistance
- We have promoters who educate farmers about our products and agronomy practice to be followed in specific geographies
- We engage in several BTL and ATL branding initiatives for targeted audiences
- We are expanding our footprint in overseas marketing in Bangladesh for vegetable seed marketing

Over 15,000 direct and indirect distributors across the country, and around 350 highly motivated marketing professionals drive our market penetration.

TEAM SPIRIT BRINGS PROGRESS

We believe talent and teamwork can bring positive organisational change; and up benchmarks of value creation for stakeholders. This combination has been primarily responsible for our sustainable growth ever since inception. Our constant endeavour is to attract, nurture and retain industry-relevant talent to achieve our long-term growth potential.

Strong team

Our strong leadership team has rich experience in seed and crop production industry. Besides, we have 50+ dedicated scientists (comprising breeders, agronomists, biotechnologists and seed technologists), along with enthusiastic and talented marketing professionals. About 775 employees are currently working in various departments of our Company.

Training endeavours

At Kaveri, our consistent emphasis is on promoting teamwork and personalised training. We are conducting specialised training and developmental programmes to sharpen our team's communication, behavioural and managerial skills.

The human resource department conducts periodic training

programmes on motivation and interpersonal behaviour; and to improve employee skills. Special training programmes are organised for research staff faculty to improve their skills in the frontier line of science. Scientists also attend seminars and workshops, where they interact with public and private sector organisations.

Training initiatives are also undertaken for field staff on seed production, quality control, agronomy and plant protection, among others. This improves their technical knowledge in quality seed production, while for sales and marketing team to improve their skills in marketing.

For the last two years, we have been focusing on need-based training. We are taking feedback from managers to understand their

specific requirements. Accordingly, we make a list of things that needs to be addressed and based on that, we have developed customised training programmes.

Reward programme

We have introduced a reward programme to recognise top performers from various departments, including research and development, seed production, sales and marketing, among others.

Employee engagement activities

Employee motivation and engagement are deeply embedded in our HR strategy. We organise team sports and games in our office; and also celebrate special days of the year like Independence Day. Besides, we celebrate the last Saturday of every month, when we engage in some fun activities.

SEEDING COMMUNITY WELLBEING

As part of our sustainability strategy, we adopt several community development programmes. These initiatives helps to uplift the lives of farmers and that of the rural poor. Our overarching focus remains empowerment from the grassroots.

We have adopted three villages (Gatla Narsingapur, Ramnagar and Bollone Pally) in Telangana, where we conducted the following programmes during the year:

- Constructed school building at Gatla Narsingapur village
- Established a mineral water plant at Gatla Narsingapur to supply clean drinking water
- Created and improved road and drainage facilities in these villages
- Drilled 50 borewells in farmers' fields at Gatla Narsingapur and Bollone Pally. Through this initiative, we brought those areas under irrigation, thereby enhancing crop production and improving the financial status of farmers
- Donated ₹ 2 crores for de-silting of tank at Gatla Narsingapur to improve water storage and increase the area under irrigation. It was under the

Telangana Government's Kakatiya Mission

- Donated ₹ 80 lakhs for the construction of a community hall
- Undertook a massive tree-plantation drive in these villages under 'Haritha Haram' programme
- Adopted three schools in these villages
- Provided scholarships to school and college-going students from socially backward communities, encouraging them to pursue higher studies
- Imparted training programmes on seed production in maize and rice; moreover, our 'farmer-level self-seed production programme' ensured active participation of farmers
- Decided to provide a bus for school-going children at Gatla Narsingapur, on 15th August 2016

1. Mr. G. V. Bhaskar Rao

Mr. G. V. Bhaskar Rao is a Science Graduate in Agriculture from Andhra Pradesh Agriculture University. He is our founder promoter and has built this organization from scratch. He has been the Chairman-cum-Managing Director of our Company since its inception and has taken our Company to its current levels of stature and recognition with his vision and rich experience. His vision to bring a change in farming community by development of high yielding varieties of hybrid seeds in agricultural crops like cotton, corn, sunflower, paddy, grain

sorghum, bajra and other vegetable seeds had impacted millions of farmers and generated employment to many. Under his leadership, Kaveri seeds has become a pioneer and a trendsetter in the Indian seed industry. He continues to steer the company by guiding the team to explore new opportunity. He is actively involved in giving back to the rural community by various community development activities.

2. Mrs. G. Vanaja Devi

Mrs. G. Vanaja Devi is associated with Kaveri Seeds since its incorporation. She is our founder Director, with immense knowledge in production and processing. She oversees the corporate social responsibility activities and looks after the processing plants. Besides, she has been assisting the MD for the cause of the development of various aspects of business. With her instinct to develop new things for betterment of the Company, she will be the ideal foil and support to MD in managing the Company.

Mr. C. Vamsheedhar is associated with the Company for the past ten years. He is Executive Director as well as a key player and growth driver in 'Team Kaveri'. He has rich experience in marketing and he also advises in general management of the Company. He has been instrumental in the exceptional growth of the Company's sales and marketing. He looks after overall marketing activities and product development & quality management of the Company.

4. Mr. C. Mithun Chand

Mr. C. Mithun Chand is associated with the Company for the past ten years as Executive Director and he has significantly contributed in sales and marketing of Kaveri Microteck and Kexveg India Private Limited, which are the subsidiaries of the Company. Besides, he looks after day-to-day activities of administration, finance and accounts departments. Mr. Chand has rich experience in marketing and finance and he advises the management about the financial issues of the Company. He envisioned new business platforms and is dedicated to building the innovation side of the business. He has been instrumental in the Company's exceptional growth.

5. Dr. G. Pawan

Dr. G. Pawan is an MBBS from Jawaharlal Nehru University Belgaum, Karnataka and has completed Doctor of Medicine (MD) from Illinois State University, Chicago, USA. Currently he is practicing in USA.

6. Dr. Y. L. Nene

Dr. Y. L. Nene is a renowned agriculture scientist and science administrator. He did his Ph.D from the University of Illinois, Urbana, USA Soon after his return to India, he taught at a college of agriculture at Pantnagar. An outstanding

researcher, Dr. Nene has published many scientific papers in peer-reviewed journals and guided several students for their Ph.D. He is one of our well respected and honoured scientist and has worked as a professor and Head of the Department of Plant Pathology at GB Pant University of Agriculture, Pantnagar. He served as a member of the governing body of ICAR.

7. Mr. M. Srikanth Reddy

Mr. M. Srikanth Reddy is a Bachelor of Science in Agriculture, from Andhra Pradesh Agricultural University. He has vast experience in various agricultural and business fields. He actively participates and advises in the various policies and functions of the Company. His contribution to the organisation is invaluable.

8. Dr. S. Raghuvardhan Reddy

Dr. S. Raghuvardhan Reddy is a Ph.D (Agriculture) and Ex-Vice-Chancellor of Acharya N. G. Ranga Agricultural University, having a vast experience in agriculture and research activities. He has been awarded several gold medals including 'Jawaharlal Nehru Birth Centenary Award' for his life-time contribution to the development of science and technology, especially in agricultural sciences.

9. Mr. P. Vara Prasad Rao

Mr. P. Vara Prasad Rao is a science graduate with over three-and-half decades of experience in general management and finance. He is an expert in business transactions & negotiations and advises the Company from time to time.

10. Mr. K. Purushotham

Mr. K. Purushotham is a science graduate in agriculture. He has a vast experience

of 36 years in banking sector. He has held several eminent professional positions, including the General Manager of Indian Overseas Bank (IOB).

11. Dr. S. M. Ilyas

Dr. S. M. Ilyas is an M.Sc. in Agricultural Engineering from Indian Agricultural Research Institute, New Delhi and D.Sc. in the same subject from the University of Novi Sad (Yugoslavia). He retired as a Director of National Academy of Agricultural Research Management (NAARM), Hyderabad. Having a vast experience in agriculture and research activities and other international assignments, he has been re-employed as Project Director (Distance Education) of National Institute of Rural Development (NIRD), Hyderabad. Dr. Ilyas has held several eminent professional positions including the Vice-Chancellor of Narendra Deva University of Agriculture and Technology, Faizabad (UP). He has been awarded several gold medals, including 'Indian Society of Agricultural Engineers Award', 'Institution of Engineers (I)' in 1997 and 2002 and 'Fellowship and Commendation Medal for Outstanding Contribution' by the Indian Society of Agricultural Engineers (ISAE).

MANAGEMENT DISCUSSION & ANALYSIS

MANAGEMENT DISCUSSION & ANALYSIS

Indian Economy

The Indian economy has been a silver lining in a global context, having recorded one of the highest growth rates when nearly all economies showed sluggish growth. According to Central Statistics Office (CSO), growth in GDP in FY 2015-16 was at 7.6% compared with 7.3% in FY 2014-15. India's high GDP growth rate has been driven by higher growth in manufacturing and the services sector. The Indian economy crossed the US\$ 2 trillion mark to hit its highest-ever value in June 2016 (Source: The Central Statistics Office, Ministry of Statistics and Programme Implementation).

India demonstrated improving macroeconomic fundamentals and its domestic economic parameters like inflation plus fiscal and current account deficits continued to be moderate. The Reserve Bank of India (RBI) cut interest rates four times this year as inflation eased sharply. Current account deficit for FY 2015-16 stood at 1.1% of gross domestic product as against 1.8% in FY 2014-15, as the country's trade deficit contracted (Source: Reserve Bank of India). India met its fiscal deficit target of 3.9% of GDP in FY 2015-16, recording a significant improvement over that of 4.1% in FY 2014-15 (Source: Finance Ministry).

Along with supportive policies and initiatives, the government has also introduced key reforms to encourage domestic entrepreneurship, bolster

infrastructure creation, strengthen rural income, attract FDI, and enhance the ease of doing business in India. As a result, in a period where global investors were exiting emerging markets, opening of sectors such as railways and defence ensured foreign direct investment (FDI) surges to its highest-ever levels. Total FDI flows for FY 2015-16 (10 months) were the highest-ever at US\$ 31.68 billion. FDI into the country has increased by 37% after the launch of 'Make in India' programme in the 17-month period from October 2014 to February 2016. To scale up investments in infrastructure, the Indian government during the Union Budget FY 2015-16 has allocated ₹ 2.21 trillion for the sector. This increase in public spending is also likely to support economic growth.

Going ahead, Indian consumption is expected to benefit from normal monsoon, better interest rate, implementation of the 7th Pay Commission recommendations and the One Rank One Pension (scheme). Increased consumption should likely to result in higher capacity utilisation, which could encourage private sector to revive their investment plans.

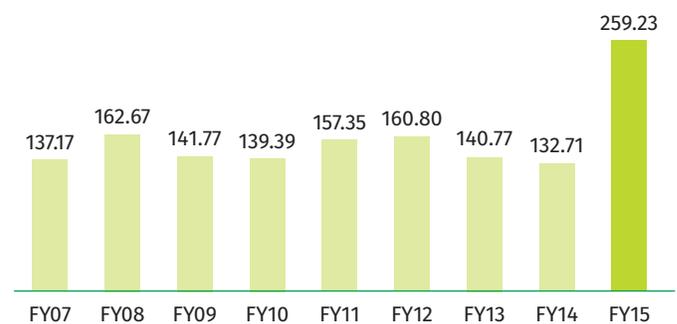

The World Bank forecast India's GDP to grow at 7.8% in 2016 to become the world's fastest growing economy, ahead of China. A stable government, RBI's inflation focus and benign global commodity prices are expected to be the key contributing factors. Additionally, new initiatives, such as 'Make in India', 'Digital India', along with a host of financial inclusion measures are expected to help accelerate economic development.

Agricultural Scenario

Agriculture remains at the core of the Indian economy with a meaningful contribution towards GDP, being the primary source of livelihood for about 58% of India's population; and comprising a fifth of the total exports of the country. India has the second largest agricultural land in the world at 157.35 million hectares, with 20 agro-climatic regions, it covers 15 major agro-climatic regions in the world. Further, India is home to 46 of the 60 different soil types in the world.

During FY 2015-16, India witnessed second successive drought-like situation in several parts of the country thus affecting the Kharif crop. With FY 2015-16 drawing to an end, the farm sector rebounded to the growth zone in Q4 FY 2015-16, as against a contraction in previous year, although the rate of expansion was low at 1.1% in FY 2015-16.

The Union Budget FY 2016-17 – implications for the agricultural sector

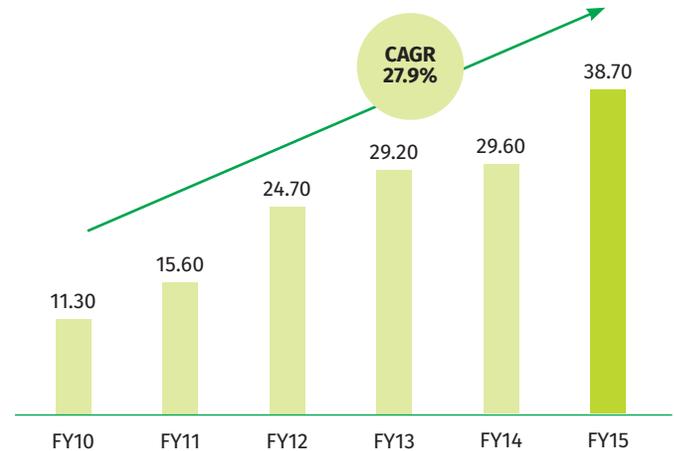

In the Union Budget FY 2015-16, the Government showed paramount focus towards addressing rural and agricultural sector distress. Government stressed the need to create a National Agriculture Market for the benefit of farmers, which will also be accompanied by moderating price rises. Government is set to work closely with the states, and NITI (National Institution for Transforming India) Aayaog, for the creation of a Unified National Agriculture Market. The important budgetary provisions impacting agriculture positively are:

- Allocation to PMKSY (Pradhan Mantri Krishi Sinchai Yojana) up from ₹ 53 billion to ₹ 57 billion – 28.5 lakh hectares will be brought under irrigation

Agricultural exports from India

(US\$ billion)

Source: Ministry of Commerce, World Trade Organisation, Indian Budget 2016, Tech.Sci. Research

- Allocation for micro irrigation (per crop more drop scheme) raised from ₹ 10 billion to ₹ 23 billion
- A dedicated Long-term Irrigation Fund will be created in NABARD with an initial corpus of about ₹ 200 billion
- Implementation of 89 irrigation projects under Accelerated Irrigation Benefits Programme (AIBP)
- 100% FDI to be allowed in Food Processing Industry through FIPB route for marketing of food produced and manufactured in India
- A special scheme has been launched in North Eastern Region with allocation of US\$ 20.73 million for the promotion of organic farming and export of organic produce

Growth Drivers

Robust demand

India, the second-most populated country in the world and its population is a key driver of demand for agricultural products. Moreover, the rising urban and rural income has further aided the demand growth.

Attractive opportunities

Limited arable land against growing population makes agricultural inputs crucial. Increasing demand for agricultural inputs such as hybrid seeds and fertilisers augurs well for the demand growth in the sector. Further, increased farm mechanisation and ease in availability of institutional credit poses great prospects for the sector.

Policy support

Favourable policies are supporting the growth of the sector in the country significantly. Schemes like Paramparagat Krishi Vikas Yojana (PKVY), Pradhan Mantri Gram Sinchai Yojana, Integrated Scheme of Oilseeds, Pulses, Oil palm and Maize (ISOPOM), Sansad Adarsh Gram Yojana, 100% FDI under automatic route for development of seeds, set up of 'pulses villages' are some of the initiatives taken by the Government to support the sector growth. The regular increase of Minimum Support Price (MSP) by Government incentivises farmers to enhance production of crops and ensure there is adequate supply.

Outlook

The agriculture sector in India is expected to generate better momentum in the next few years due to increased investments in agricultural infrastructure such as irrigation

facilities, warehousing and cold storage. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers.

Seed Industry Overview

Seed is a vehicle for delivery of improved technologies and is a mirror for portrayal of inherent genetic potential of variety. Seed offers to integrate production, protection and quality enhancement technologies in a single entity, in a cost-effective way. Farmers are moving towards branded seed instead of using seed saved from the previous harvest and upgrading to better quality seeds to improve their yield leading to growth in the seed industry. Further, the advent of genetically modified (GM) cotton changed the landscape of the Indian seed industry. As per ICRA, the Indian Seed Industry is the sixth largest in the world in value terms accounting for about 4.5% of global industry preceded by the US (27%), China (22%), France (6%), Brazil (6%) and Canada (4.8%). Despite being a leading agricultural producer (only behind USA and China), the relatively small-scale of seed industry in India can be attributed to poor SRR. Multiple forecasts advocate that the Indian seed industry will grow twice the average for the rest of the world for the years to come.

Agriculture sector commands the largest share of the country's total land area at about 48% (or 156 million hectares) compared to USA's 18% (or 158 million hectares) and China's 15% (or 106 million hectares). Despite this, India has significantly lower share in the global agricultural output in terms of foodgrains and oilseeds compared to USA and China, and significantly lag China in terms of fruits and vegetables production. The reasons for the lower productivity are low usage of high quality seeds, inadequate and unbalanced use of fertilisers, low usage of plant protection chemicals, lower farm mechanisation, weak credit facilities, market linkages and shortage of water.

Seeds have been highly instrumental in supporting agricultural growth over the past 40-50 years, with productivity gains and the expansion of the domestic seed industry moving in tandem. Though seed constitutes a small proportion of the total input costs of crop production, it is a basic and critical input in increasing productivity.

Given the importance of seed in the livelihood of millions of farming families, the quality in terms of yield and consistency in performance is paramount. Further, as the cost of seed is not considerable to the total cost of cultivation, the farmer would be willing to pay a premium for the right product.

High Entry Barriers

There are several barriers present making the foray into the seed business quite challenging. Firstly, the seed industry entails high investments in R&D where the average lead

time from R&D to commercial introduction is 7-8 years. The process of developing an effective hybrid is a complex process – several high value skills required to choose the right kind of lines. Secondly, there is an inherent requirement of a wide distribution/production/marketing network across India for a diverse portfolio of seeds considering the varied agro-climatic conditions across India. Thirdly, and the most important barrier of them all, is the need for high degree of credibility with farmers, as farmers will not jeopardise their year's worth of income on un-established company seeds.

Outlook

The seed industry is expected to register double-digit growth in FY 2016-17 owing to prediction of above-normal monsoon and higher commodity prices. Improvement in seed replacement rate (SRR) and farmers opting for hybrid seeds is further expected to fuel the growth. The favourable policy environment aimed at supporting the usage of seeds through National Seeds Plan (NSP) and boosting agricultural productivity through National Food Security Mission (NFSM) augurs well for the industry. A transparent and unambiguous regulatory environment would be critical to aid the growth of the industry.

Moreover, with demand for crops rising and arable land available in India remaining limited, increased productivity is the natural path forward making quality of seeds an indispensable component of all agricultural production in the coming decades.

Kaveri Seed

Kaveri Seed Company Ltd. is one of the premier and fastest-growing seed companies in the country. The history of the Company dates back to 1976, when Sri G. V. Bhaskar Rao, a young and dynamic agriculture graduate, through his start-up G.V.B. Rao & Company ventured into seed business. It is now one of the largest seed company in India, with a strong R&D base for developing quality hybrids in key Indian crops. The Company is supported by a large network of over 15,000 distributors and dealers spread across the country, over 775 employees and a strong product line of hybrids.

With one of the largest collection of crop germplasm in the country, Kaveri has a portfolio of high yield hybrid and varietal seeds. Kaveri Seeds is present across a spectrum of crops which helps to meet the different needs of the farmers unlike many companies which are focused on few crops only.

Core strengths

Research and development driven

New product development is essential in seed business and hence a R&D is critical for the success of a seed company. Our Company over the years systematically built robust R&D programme and now can boast of organised R&D, dedicated research farms and technically competent personnel.

Comprehensive, market-centric, pan-India operations

Farmer is the centre of focus for our organisation. We understand their needs and reach them directly with the help of our field force and indirectly through our channel partners. We have built a strong relationship with farmers over the years by introducing cutting edge products, supplying good quality seeds and giving agronomic knowledge for them to increase their income. We have developed a dedicated network of channel partners who are loyal and help us to reach untapped markets. Our presence has been very strong in the states of Telangana, Andhra Pradesh, Karnataka, Maharashtra and Tamil Nadu. We are expanding our footprint in other states to address the growth opportunities.

Dedicated grower/producer farmer network

- Large production area across India with a loyal 'producer farmer' network
- ~ 1,00,000 production growers across different agro-climatic zones
- ~ 65,000 acres under seed production
- High credibility with the farmers
- Focused programmes to spread awareness amongst farming community on new products in market

Pioneering processing and storage set-up - amongst the largest capacities

- Seven Company owned plants across key locations in India with a combined processing capacity of ~ 130 tonnes per hour
- Cutting-edge equipment for pre-cleaning, grading, cob drying, storage, packing
- Maize cob drying facility with a capacity of 2,900 tonnes per cycle
- Warehouses across India with combined storage space of ~5,00,000 sqft
- Dehumidified, climate-controlled storage facilities
- Storage godowns of ~1,35,000 sqft (cold) and ~2,80,000 sqft (ambient) with holding capacity of ~25,000 MT

Opportunities

The surge for food

The demand for agricultural raw materials is set to rise manifold given the increase in the world population. With increasing disposable income, demand will increase for better quality food like protein, fruits and vegetables. According to United Nations Food and Agriculture Organization, by the year 2050, food production will consequently have to be increased by 70% to meet the demands of 9 billion and growing world population.

Seed Replacement Rate (SRR)

Seed Replacement Rate is the percentage of area sown out of total area of crop planted in the season using certified/ quality seeds as against the farm saved seed. The need for higher SRR emerges from the fact that the quality of a seed deteriorates in successive generations in case of farm saved seed. Hybrid seed, however, needs to be replaced every year whereas inbred variety non-hybrids every three to four years. In India, there is sufficient scope for improvement as far as SRR is concerned. Increasingly, farmers and vegetable producers are using branded seed due to their proven efficiency and higher yields over farm saved. The importance of producing more, while using less inputs is gaining prominence in the Indian context.

Prospects for increased cotton market share

The performance of Jaadoo has been relatively much better than competition and hence it is expected to gain market share in the established markets. ATM will be the next growth hybrid especially in the states of Maharashtra and Gujarat.

High Density Planting (HDP)

High Density Planting (HDP) is a system in which higher number of cotton plants are accommodated in per unit area. We have designed and delivered a cotton hybrid 3X1 to suit under HDP with a spacing of 3 feet row-to-row and 1 feet plant-to-plant to accommodate more number of plants to obtain high yields.

Our R&D cotton is also concentrating their efforts to change the plant ideotype concept for determinate type to suit for mechanical harvesting.

Price regulation of cotton seeds

In December 2015, the Agriculture Ministry issued a Cotton Seeds Price (Control) Order to fix a uniform maximum retail price (MRP) for all cotton seeds including the genetically modified versions from March 2016. It also decided to fix and regulate the seed value and licensee fee including royalty or trait value. We welcome this order, as it reduces uncertainty and improves business viability for all seed companies.

Paddy

Paddy occupies the largest area under any crop in India and is the staple food for large population. Farmers traditionally use their own seed for planting but there is rapid shift towards using packed seeds. Farmers are moving to hybrid seeds in few market and in other markets upgrading to packed selection variety seeds which is made available by private players. Government programme to promote hybrid usage and effort by industry to educate the farmer on the benefit of hybrid paddy has helped to increase the usage of hybrid rice but current hybrid rice penetration percentage is still in single-digit. Current paddy hybrid products available in the market does not address the needs of all the markets. The market for selection variety rice is growing rapidly. Kaveri Seeds will be addressing both the segment of paddy market and we already have a portfolio of products both in selection rice and hybrid rice to take advantage of this opportunity.

Corn (Maize): Increasing demand

Maize is the widely grown crop worldwide. Maize is an important raw material in food processing, poultry, dairy, meat and ethanol industry and along with its traditional uses makes it one of the fastest-growing crops in the world. India is the world's sixth largest producer and fifth largest consumer of maize.

Over the last several years, maize production in India has leaped forward as farmers increasingly adopted maize hybrids and upgraded to better hybrids. Maize acreage has grown in India over years as it is highly adaptable to different season, requires less water, easy to grow with good commodity price.

With increasing income in India, the demand for animal protein is expected to go up rapidly. Demand for Maize in India is expected to continue to grow due to demand from feed industry and export opportunity.

Kaveri is a well-known brand in hybrid Maize seeds market and we have the largest portfolio of products to address all the segments in the market. We have a robust pipeline of products to address the growing market.

Vegetables

Hybrid vegetable seed is one of the fastest-growing segments in India estimated to be around ₹ 2,000 crores .

This makes India the second-largest producer of vegetables in the world, after China. The market for hybrid vegetable seeds is rapidly expanding in the country. Tomato, chillies and Okra are the key crops in hybrid vegetables and we have identified these crops as our primary crops for product development. We will also be participating in gourds, egg plant and watermelon market. Vegetables market is characterised by many segments due to varied customer needs and we have identified the priority segments in each crop to focus upon. We have a dedicated R&D in each of the crops for product development. We will scale up our sales and distribution in the coming year to address this opportunity.

Global roadmap

Kaveri is looking to continually expand its geographical presence beyond India and we have identified Asia Pacific region and Africa as countries where we can gain meaningful foothold.

Key Risks

Nature of Risk	Risk Explanation	Risk Mitigation
Production risk	Changing climate conditions such as continuous dry spell, high temperature, erratic rainfall, excess rainfall may drastically impact commercial seed production of the Company	The risk is alleviated by the Company growing its seeds in multiple locations
Climate risk	Changing rainfall patterns makes farmers to move from one crop to another to suit the growing conditions	This risk is mitigated by Kaveri's diverse crop portfolio and having products which can withstand the tough growing conditions
Competition risk	In business, competition from peers can impact the Company's trade	The Company's ability to innovate from long-term investment in R&D for cutting-edge products, supply chain capability, accompanied by aggressive marketing helps to be one step ahead of competition
Dependency risk	Dependency on any one particular product may affect the growth prospects of the Company	The Company's range of crops and broad portfolio within the crops minimise its dependency on any single hybrid or crop. Additionally, the Company is strengthening its product portfolio by phasing out old products with rapid introduction of new products
Product life cycle risk	Accelerated product innovation & development through technology advances impacts the shelf life of a product	The Company monitors and seeks regular feedback on product performance and replace products on regular basis to manage product life cycle

Outlook

Consecutive weak monsoon and unsupportive commodity price has impacted Kharif and Rabi seasons in the past two years. Resultantly, farm income lowered which lead to farmer trading down and curtailing investments which led to lower than expected revenue growth for seed companies.

For the coming year, optimism has returned and monsoon is expected to be normal which will lead to strong recovery for the overall agri-input space.

As per India Meteorological Department (IMD), the FY 2016-17 Kharif season is likely to receive normal or above normal level rainfall. Historically, improved monsoons drive higher demand for premium seeds. The commodity prices have increased due to lower production in the past year and farmers are planning to scale up investments on quality inputs post two years of weak rainfall. Further, Central Government's decision to regulate seed prices and royalty amount from FY 2016-17 onwards reduces uncertainty and improves business viability for all seed companies.

From a Kaveri perspective, FY 2016-17 is expected to post robust growth. We expect to capture higher market share driven by our diverse portfolio and well-established national footprint and availability of adequate quantity of seeds in spite of tough growing conditions in the previous year.

We have been intensifying sales effort in Cotton by doing a lot of field promotion activities to regain share in markets of Andhra Pradesh, Telangana and Karnataka and expect to make further market share gains in Maharashtra, Gujarat and Madhya Pradesh.

Simultaneously, plans are afoot to scale up non-cotton operations. Rising demand for Maize and higher seed penetration of hybrid paddy remain the key drivers. We have developed a sizeable and well-diversified farmer-centric portfolio which has been progressively gaining prominence in the marketplace and has served us well against crop shifts. In the coming year and the period ahead we expect strong growth from our high margin non-cotton portfolio, especially from maize. We plan to start commission of new plant in Molangur to augment our supply capability especially for paddy.

Going forward, the structural drivers of Kaveri will continue to strengthen – benchmark R&D programme to successfully launch new hybrid seeds, de-risked portfolio with growing non-cotton seed sales, expansion in new geography and growing farmer acceptance across the country. Our fundamentals remain strong and we will rapidly consolidate to accelerate our growth in future.

Human Resources

Kaveri Seeds aims to consistently bring talent on board, provide them relevant training and make the most of ignited minds to drive the Company's long-term growth. The Company's strong leadership team has rich experience in seed and crop production industry. Moreover, it has over 50 dedicated scientists comprising breeders, agronomists, biotechnologists and seed technologists, along with dynamic sales and marketing professionals. At present, around 775 employees are working in various departments of the Company.

The Company's consistent emphasis is on promoting teamwork and personalised training. It conducts specialised training and developmental programmes to sharpen the team's communication, behavioural and managerial skills. The human resource department organises periodic training programmes to improve employee skills. Training programmes on seed production, quality control, agronomy and plant protection are organised for the field staff. Besides, specialised training programmes are conducted for R&D staff, marketing people as well as other departments. Need-based training programmes are also gaining relevance for the last two years.

The Company has introduced a reward programme to recognise top performers from various departments, including R&D, seed production, sales and marketing, among others.

Indian Accounting Standards – IFRS Converge Standards

The Ministry of Corporate Affairs vide its notification dated 16th February, 2015 has notified the Companies (Indian Accounting Standards) Rules, 2015. In pursuance of the said notification, the Company will adopt Indian Accounting Standards with effect from 01st April, 2016 with the comparatives for the period ending 31st March, 2015. The implementation of Indian Accounting Standards (IAS) is a major change process for which the Company has set up a dedicated team and is providing desired resources for its completion within the time frame. The impact of the change on adoption of said IAS is being assessed.

Internal Control Systems and Their Adequacy

The Company has laid down set of standards which enables to implement internal financial control across the organisation and ensure that the same are adequate and operating effectively. The Audit Committee of the Board of

Directors actively reviews the adequacy and effectiveness of the internal control systems and suggests improvements to strengthen the same. The Audit Committee of the Board of Directors, Statutory Auditors and Finance Heads are periodically apprised of the internal audit findings and corrective actions taken. Audit plays a key role in providing assurance to the Board of Directors. Significant audit observations and corrective actions taken by the management are presented to the Audit Committee of the Board. To maintain its objectivity and independence, the internal Audit function reports to the Chairman of the Audit Committee.

Internal Financial Controls

The internal financial controls (IFC) framework at Kaveri Seeds encompasses internal controls over financial reporting (ICFR) as well as operational controls that have been put in place across all key business processes of the Company. The internal controls are designed to facilitate and support the achievement of the Company's business objectives and such controls do enable the Company to adapt to changing and operating environment, to mitigate risks to acceptable levels and to support sound decision making and good governance.

Details in respect of adequacy of internal financial controls with reference to the financial statements are briefly iterated below:

- a. The Company maintains all its major records in ERP System.
- b. The Company has appointed internal auditors to examine the internal controls, whether the workflow of the organisation is being done through the approved policies of the Company. In every quarter, during the approval of financial statements, internal auditors present the internal audit report and the management comments on the internal audit observations; and
- c. The Board of Directors of the Company has adopted various policies such as related party transactions policy, whistle blower policy, policy to determine material subsidiaries and such other procedures for ensuring the orderly and efficient conduct of its business for safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information.

FUTURE PROSPECTS & OUT LOOK

Agriculture plays an integral role in India's economy. Over 58% of rural households depend on agriculture as their primary means of livelihood. As per estimates by the Central Statistics Office (CSO), the share of agriculture and allied sectors (including agriculture, livestock, forestry and fishery) was 15.35% of the Gross Value Added (GVA) during 2015-16 at 2011-12 prices. According to the Department of Industrial Policy and Promotion (DIPP), the Indian agricultural services and agricultural machinery sectors have cumulatively attracted Foreign Direct Investment (FDI) equity inflow of about US\$ 2,261 million from April 2000 to December 2015. The country's agriculture sector is expected to grow by 6% in FY 2016-17 if normal monsoon prevails during the June-September, 2016.

India's seed industry is growing at a compound growth rate (CAGR) of 8.4% in volume terms from FY 2009 to FY 2015 to reach 3.5 million tonnes in consumption (Source: ICRA). The industry is expected to increase significantly, on account of improved seed replacement ratio (SRR) and rising adoption of high-yielding hybrid seeds. The Government of India's favourable policy environment, aimed at supporting the usage of seeds through the National Seeds Plan and bolstering agricultural productivity through the National Food Security Mission (NFSM) also augur well for the industry.

STANDALONE FINANCIAL STATEMENTS

Independent Auditor's Report

To
The Members of

M/S. KAVERI SEED COMPANY LIMITED

REPORT ON THE STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of M/S. KAVERI SEED COMPANY LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements

and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016, and its Profit and its cash flows for the year ended on that date.

Annexure - B Referred to Independent Auditor's Report to the Members of M/S.KAVERI SEED COMPANY LIMITED for the year ended 31 March 2016.

Referred to in the Independent Auditor's Report of even date to the members of Kaveri Seed Company Limited on the standalone financial statements for the year ended March 31, 2016.

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (1) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. We have audited the internal financial controls over financial reporting of Kaveri Seed Company Limited ("the company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accounts of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the preventing and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depending on the auditor's judgment, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with Generally Accepted Accounting Principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statements in accordance with Generally Accepted Accounting Principles, and that receipts and expenditure of the company are being made only in accordance with authorisation of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projection of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the company has, in all material respects, an adequate internal financial controls systems over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal

controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accounts of India.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the

provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Annexure - A Referred to Independent Auditor's Report to the Members of M/S.KAVERI SEED COMPANY LIMITED for the year ended 31 March 2016.

Referred to in the Independent Auditor's Report of even date to the members of Kaveri Seed Company Limited on the consolidated financial statements for the year ended March 31, 2016.

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (1) OF SUB-SECTION 3 OF SECTION 143 OF THE ACT

1. We have audited the internal financial controls over financial reporting of Kaveri Seed Company Limited ("the holding company") and its subsidiary companies as of March 31, 2016 in conjunction with our audit of the consolidated financial statements of the company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

2. The respective board of directors of the holding company and its subsidiary Companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accounts of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the preventing and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial

reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depending on the auditor's judgment, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with Generally Accepted Accounting Principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transaction are recorded as necessary to permit preparation of financial statements in accordance with Generally Accepted Accounting Principles, and that receipts and expenditure of the company are being made only in accordance with authorisation of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

7. Because of the inherent limitations of internal financial controls over financial reporting, including

the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projection of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Holding Company and its subsidiary companies have in all material respects, an adequate internal financial controls systems over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accounts of India.

9. Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one subsidiary company is based on the corresponding reports of the auditor of such company . Our opinion is not qualified in respect of this matter.

Notes to Consolidated Financial Statements

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

a. System of Accounting

The Financial Statements of the Company have been prepared under the historical cost convention, on accrual basis, to comply in all material respects with the mandatory Accounting Standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act 2013, except in the case of sale of realizable scrap which is accounted for on receipt basis. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year.

b. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

- i. Revenue from sale of goods is recognised on dispatch which coincides with transfer of significant risks & rewards to customer and is net of sales returns and sales tax, wherever applicable.
- ii. Interest is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

c. Fixed assets and Depreciation

- i. Fixed assets are stated at cost less accumulated depreciation, impairment losses and specific grant/subsidies if any. Cost comprises the purchase price, freight, duties, taxes and any attributable cost of bringing the asset to its working condition for its intended use. Finance costs relating to acquisition of fixed assets are included to the extent they relate to the period till such assets are ready for intended use.
- ii. Expenditure directly relating to construction activity is capitalized. Indirect expenditure is capitalized to the extent it relates to the construction activity or is incidental thereto. Income earned during construction period is deducted from the total expenditure relating to construction activity.
- iii. Assets retired from active use and held for disposal are stated at their estimated net realizable values or net book values, whichever is lower.

- iv. The carrying amount of fixed assets are reviewed at each balance sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed the estimated recoverable amount, assets are written down to their recoverable amount.
- v. Impairment loss, if any, is provided to the extent the carrying amount of Assets exceeds their recoverable amount.
- vi. Depreciation is provided on written down value method, at the rate specified in schedule II to the Companies Act, 2013 and as per applicable Accounting standards.
